

Contents Volume 164 (2004)

Research papers

- Weichselian and Holocene growth of the northern high-latitude Lofoten Contourite Drift on the continental slope of Norway
J.S. Laberg and T.O. Vorren 1
- Two unique weathering regimes in the Changjiang and Huanghe drainage basins: geochemical evidence from river sediments
S. Yang, H.-S. Jung and C. Li 19
- Orbitally driven fertility cycles in the Palaeocene pelagic sequences of the Southern Alps (Northern Italy)
L. Poletti, I. Premoli Silva, D. Masetti, M. Pipan and M. Claps 35
- Recognition and interpretation of depositional units in a late Neogene progradational shelf margin complex, Taranaki Basin, New Zealand: foraminiferal data compared with seismic facies and wireline logs
G.H. Scott, P.R. King and M.P. Crundwell 55
- Anhydrite cements after dolomitization of shallow marine Silurian carbonates of the Gascoyne Platform, Southern Carnarvon Basin, Western Australia
M. El-Tabakh, A. Mory, B.C. Schreiber and R. Yasin 75
- Siliciclastic sedimentation and sequence stratigraphic evolution on a storm-dominated shelf: the Lower Ordovician of the Central Iberian Zone (NE Jaén, Spain)
J. Rey and M.C. Hidalgo 89
- Middle Miocene–early Pliocene paleo-oceanic environment of Japan Sea deduced from geochemical features of sedimentary rocks
S. Kimura, N. Shikazono, H. Kashiwagi and M. Nohara 105
- Miocene sedimentation and subsidence during continent–continent collision, Bengal basin, Bangladesh
A. Uddin and N. Lundberg 131
- Detrital zircon ages: a key to understanding the deposition of deep marine sandstones in the Norwegian Sea
H.C. Fonneland, T. Lien, O.J. Martinsen, R.B. Pedersen and J. Košler 147
- The fabrics and origins of peloids immediately after the end-Permian extinction, Guizhou Province, South China
N. Adachi, Y. Ezaki and J. Liu 161

Expressed

- Transgressive surfaces of erosion as sequence boundary markers in cool-water shelf carbonates
V. Caron, C.S. Nelson and P.J.J. Kamp 179

Research papers

- Shallow-water aragonite recorded in bundles of limestone–marl alternations—the Upper Jurassic of SW Germany
A. Munnecke and H. Westphal 191

Provenance of the Murihiku Terrane, New Zealand: evidence from the Jurassic conglomerates and sandstones in Southland A. Noda, M. Takeuchi and M. Adachi	203
Holocene development of the Belize Barrier Reef E. Gischler and J.H. Hudson	223
Delta initiation and Holocene sea-level change: example from the Song Hong (Red River) delta, Vietnam K. Hori, S. Tanabe, Y. Saito, S. Haruyama, V. Nguyen and A. Kitamura	237
Sequence stratigraphy in a marine moraine at the head of Hardangerfjorden, western Norway: evidence for a high-frequency relative sea-level cycle S.K. Helle	251
Sequence response to syndepositional regional uplift: insights from high-resolution sequence stratigraphy of late Early Pleistocene strata, Periadriatic Basin, central Italy G. Cantalamessa and C. Di Celma	283
Experimental and numerical study of topographic effects on deposition from two-dimensional, particle-driven density currents Y. Kubo	311
<i>Discussions</i>	
Comment on 'How plausible are high-frequency sediment supply-driven cycles in the stratigraphic record?' by S. Castelltort and J. Van Den Driessche (2003, <i>Sedimentary Geology</i> , 157, 3–13) J. Knight	327
Reply to comment on "How plausible are high-frequency sediment supply-driven cycles in the stratigraphic record?" by Jasper Knight S. Castelltort, J. Van Den Driessche and P. Davy	331
Present-day sandurs are not representative of the geological record: <i>Sedimentary Geology</i> 152, 1–5 (2002) P.M. Marren	335
<i>Correspondence</i>	
Present-day sandurs are not representative of the geological record—reply T. Zielinski and A.J. van Loon	341
<i>Erratum</i>	
Erratum to "Predicting the terrestrial flux of sediment to the global ocean: a planetary perspective" [<i>Sediment. Geol.</i> 162 (2003) 5–24] J.P.M. Syvitski	345
<i>Book review</i>	
Rivers and floodplains—forms, processes, and sedimentary record A.J.T. van Loon	347
<i>Author Index Volume 164 (2004)</i>	349
<i>Contents Volume 164 (2004)</i>	351
